Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 3-11 are pending. Claims 2, 12-17 have been canceled according to the amendment filed on 10-13-2004.

Priority

2. The amendment to insert the specific reference to provisional application 60/407489 in the first sentence of the specification is acknowledged.

Duplicate Claims

3. The cancellation of Claim 2 has rendered moot the objection to its being a substantial duplicate of claim 1.

Claim Rejections - 35 USC § 103

4. The rejection for Claims 1, 3-11 under 35 U.S.C. 103(a) as being obvious over McClure (6696464) is maintained for reasons of record.

The Declaration by Dr. McClure has been fully considered but deemed insufficient to overcome the obviousness rejection for the following reasons.

In the Declaration, comparison is not made between the closest prior art compound and the inventive compound. More specifically, McClure's Example 12 has a 4-fluorophenyl and a 3-isopropyl, whereas the instant Example 1 has a 2,4-difluorophenyl and a 3-cyclopropyl. There are two differences between these compounds.

To establish unexpected results, the side-by-side comparison should be made with the closest prior art compound with only one difference. In this case, the closest compound is McClure's Example 3, which has a 4-fluorophenyl instead of the 2, 4 or 2,5-difluoro-phenyl of the compound of instant claims 4, 5, or the first or last two compounds of instant claim 11.

Art Unit: 1625

Since unexpected results have not been established, the instant remains obvious over the prior art of record.

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art only under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 103(a) might be overcome by: (1) a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not an invention "by another"; (2) a showing of a date of invention for the claimed subject matter of the application which corresponds to subject matter disclosed but not claimed in the reference, prior to the effective U.S. filing date of the reference under 37 CFR 1.131; or (3) an oath or declaration under 37 CFR 1.130 stating that the application and reference are currently owned by the same party and that the inventor named in the application is the prior inventor under 35 U.S.C. 104, together with a terminal disclaimer in accordance with 37 CFR 1.321(c). For applications filed on or after November 29, 1999, this rejection might also be overcome by showing that the subject matter of the reference and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person. See MPEP § 706.02(l)(1) and § 706.02(l)(2). ***.

Double Patenting

5. The provisional rejection for Claim 11 under 35 U.S.C. 101 as claiming the same invention as that of claim 12 of copending Application No. 10/649236 is maintained for reasons of record. Applicants did not respond to this rejection.

Double Patenting

6. The rejection for Claims 1, 3-11 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 5, 15, 49, 50 of U.S. Patent No. 6696464 is maintained for reasons of record. Applicants state that a TD would be submitted in due course.

7. The provisional rejection for Claims 1, 3-11 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5, 7-11 of copending

Art Unit: 1625

Application No. 10/649236 is maintained for reasons of record. Applicants state that a TD would be submitted in due course.

8. The provisional rejection for Claims 1, 3-11 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 of copending Application No. 10/649227 in view of McClure (6696464) is maintained for reasons of record. Applicants state that a TD would be submitted in due course.

9. The provisional rejection for Claims 1, 3-11 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of copending Application No. 10/649265 in view of McClure (6696464) is maintained for reasons of record. Applicants state that a TD would be submitted in due course.

10. The provisional rejection for Claims 1-11 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of copending Application No. 10/649216 in view of McClure (6696464) is maintained for reasons of record. Applicants state that a TD would be submitted in due course.

Conclusion

11. No claims are allowed.

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1625

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
